ABOUT RGNUL

The Rajiv Gandhi National University of Law (RGNUL), Punjab, was established by the State Legislature of Punjab by passing the Rajiv Gandhi National University of Law, Punjab Act, 2006 (Punjab Act No. 12 of 2006). The Act incorporated a University of Law of national stature in Punjab, to fulfil the need for a Centre of Excellence in legal education in the modern era of globalization and liberalization. The University got registered with the University Grants Commission (UGC), New Delhi under Section 2(f) of the University Grants Commission Act, 1956 and has been declared fit to obtain a grant from the UGC under Section 12-B of the UGC Act, 1956. The University was accredited with an 'A' Grade by the National Assessment and Accreditation Council (NAAC) in 2015. RGNUL, Punjab was granted autonomy under the UGC Regulations, Clause 5 Dimensions of Autonomy for Category-II Universities in April 2018. The Ministry of Human Resource Development, Government of India, ranked RGNUL as the first amongst the cleanest Higher Educational Institutions, Swachh Campus (2019) in the category of Government Residential Universities.

INFRASTRUCTURE

Rajiv Gandhi National University of Law, Punjab is a residential university operating at its campus in Sidhuwal, Patiala-Bhadson Road, Patiala (Appx: 47.30 acres). All students live in hostels (separately made blocks of hostels for boys and girls). The University provides all required services to students on campus, including a health centre, a bank, a post office, a canteen and cafeteria, a stationery and book shop, a laundry service, a gym, and other sports facilities. The Guest House, VIP Guest House, twenty-eight faculty houses, thirty-two non-teaching residences, and sixteen houses for class IV employees are all fully occupied. The entire campus is connected by well-kept roadways and surrounded by lush greenery. More than 66% area of the campus is under green cover.

ACADEMIC INITIATIVES

1. Law Practicum Series

The law practicum series was introduced to ensure that proper technical and industry-specific knowledge is imparted to the students. Through intensive teaching and practical real-world examples of the subject, it is intended to enhance understanding and bridge the gap between substantive legal knowledge and the problems that are faced in the real world. Law practicum includes a pedagogy wherein industry experts and legal practitioners are invited to deliver lectures to students on specialised and advanced subjects. It shows that students are not bound by the straight-jacket syllabus that is present in the curriculum and can think out of the box.

2. RGNUL Student Academic Assistance and Support Policy

RGNUL Student Academic Assistance and Support Policy (RSAASP) offers an opportunity for the academic growth of the student. The aim of RSAASP is to enhance the efficacy of the learning environment for students from diverse educational backgrounds. RSAASP is assisted by committees comprising faculty and student assistants. RSAASP encompasses a broad array of academic activities-access to support for resolving academic queries, acquaintance with the contours and requirements of the course, extra-tutorial assistance, comprehension of Project Work, aid for non-English medium/language related issues, guidance for research and practical exposure/training throughout the five-year B.A.LL.B. (Hons.) Programme. The Policy reflects the collaborative spirit at RGNUL as students and faculty coordinate for the management of activities. RSAASP ensures productive assistance to new students, facilitates initial transition to University studies, encourages inter-batch association and extends another avenue of learning in integration with the classroom environment.

3. Research Outcome Dissemination Series (RODS)

The Research Outcome Dissemination Series (RODS) is one of the initiatives by RGNUL to ensure high-quality research. RODS was introduced for the enhancement, dissemination, and amplification of quality research and the application of innovative findings with respect to real-world situations. It takes into consideration the interdisciplinary and quality legal and factual understanding of the situations via collaborations and partnerships with different organizations, including private and public organizations such as government departments, academic institutions and international and national think tanks, and other research institutions. The most striking feature of RODS is that it includes participation from all levels, including agencies, research scholars, students, and other professionals. Each session spans half an hour, where the initial half is devoted to understanding the research questions and the rest half-open to the discussion.

4. Interdisciplinary Teaching

Interdisciplinary teaching has been introduced to ensure that there is no stagnation of knowledge and that various methods of teaching are being experimented with and implemented to amplify convergent understanding by using a blend of different styles of pedagogy. Interdisciplinary teaching at RGNUL focuses on converging the concepts of social sciences with various fields of law. This empowers the student to grasp the practical approach to the field and gauge impressions of their expertise and interest.

CURRICULUM

RGNUL offers a rigorous academic curriculum for its students, which comprises 36 core courses and 24 elective subjects. In its B.A. LL.B. (Hons.) course, it opts for an interdisciplinary approach wherein the students are introduced to the subjects of both humanities and law. The first 3 years of the course consist of humanities' papers, such as Political Science, History, Economics, and Sociology, along with compulsory legal papers.
