### **ABOUT THE INDIAN KNOWLEDGE SYSTEM**

India has a vast tradition of Sanskrit texts dealing with various scientific thoughts. Number of treatises on the topics like Agriculture, Animal Husbandry, Chemistry, Astronomy, Mathematics, Botany, etc. focus on the development of thoughts in the concerned area. This course aims at introducing a student with various treatises on physical as well as social sciences and their contribution to modern branches of sciences. Taking into consideration the vast scope of these sciences, major treatises will be introduced in the course thereby making a student to ponder over the ancient knowledge systems of India. The introduction of the course “Indian Knowledge Systems (IKS) “by the National Education Policy (NEP) 2020 is aimed at revitalizing and promoting India's traditional knowledge systems, which have been integral to its cultural and intellectual heritage for centuries. The course reflects a broader shift towards a more inclusive and holistic approach to education, recognizing the value of both modern and traditional knowledge systems in shaping well rounded individuals and society. Bharat is considered one of the oldest civilizations of the world. Some of the archaeological evidences proved existence of Indus civilization in 7000 B.C.. Bhartiya traditions, culture, cultural activities, rituals, sacraments, painting, art of dancing, art of singing etc. is being practiced till the modern times without knowing scientific approaches behind that. Eternity of Indian knowledge system proved itself that not only many rituals but also many traditions, many streams of knowledge like astrology, mathematics, physics, chemistry, biology, yoga and
